## Supervised Clinical Experience

**Note:** The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2021-22. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes  
 No

If yes, provide the next two responses. If no, leave them blank.

### Programs with student teaching models (most traditional programs)

Number of clock hours of supervised clinical experience required prior to student teaching

Number of clock hours required for student teaching

Are there programs in which candidates are the teacher of record?

- Yes  
 No

If yes, provide the next two responses. If no, leave them blank.

### Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom

Years required of teaching as the teacher of record in a classroom

### All Programs

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

# Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

**(§205(a)(1)(C)(ii))**

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	61	12
No Race/Ethnicity Reported	5	1

# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

- Yes  
 No

No teachers prepared in academic year 2021-22

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

**Note:** This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The most successful strategy for meeting the needs of local education agencies is maintaining national accreditation of the teacher preparation unit (e.g., CAEP recognition) as well as maintaining recognition of each of our program of study (e.g., SPA recognition). The most successful strategy for meeting assurances associated with diversity is requiring varied field experiences (e.g., urban, suburban and rural) and streaming diversity-related issues (e.g., differentiated instruction, culturally-responsive pedagogy, trauma-informed instruction, dyslexia) throughout the teacher preparation program.

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

Continue to increase the number of students graduating from the mathematics education program and ensuring to recruit highly quality teacher candidates.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

## Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.

- Yes  
 No

8. Describe your goal.

Continue to increase the number of students graduating from the mathematics education program and ensuring to recruit highly quality teacher candidates.

## Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.

- Yes  
 No

10. Describe your goal.

Continue to increase the number of students graduating from the mathematics education program and ensuring to recruit highly quality teacher candidates.

## Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in science in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

Our aim was to recruit 7-8 secondary science education students into the program.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

We promoted our Teacher Education Plus program to leaders and advisors of science majors. This appears to have yielded some fruit, as we had a handful of applicants via that program. However, we still have not met the targeted number of students. We have also been working hard to retain students who express interest and those admitted into the program. We have worked closely with our undergraduate advising office to help students navigate challenging degree requirements while also building a supportive community for students.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

See above.

6. Provide any additional comments, exceptions and explanations below:

## Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in science in 2022-23? If no, leave the next question blank.

- Yes  
 No

8. Describe your goal.

In conjunction with the JRCoE advising office, we are working to develop articulation agreements that will hopefully provide additional pathways and recruiting pools for undergraduate students to enter into secondary science education programs. We will continue to lean into our work retaining the students we have, but we also need to continue to search for new recruitment opportunities. We hope to recruit 7-9 new students during 2022-2023.

## Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in science in 2023-24? If no, leave the next question blank.

- Yes  
 No

10. Describe your goal.

Continue to develop our recruitment efforts and identify successful recruitment pathways. Recruit 8-10 new students during 2023-2024.

## Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

Our goal for 2020-2021 will be to (a) re-align course objectives and assignments with new CEC standards and High-Leverage Practices and have these clearly labeled on course syllabi and (b) create evaluation forms of the practicum/internship experiences from the cooperating teacher, OU student, and university supervisor perspectives.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

## Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.

Yes

No

8. Describe your goal.

(a) integrate video analysis assignment throughout every semester of the undergraduate degree program for special education pre-service teachers and (b) revise survey items for pre-service teachers, cooperating teachers, and university supervisors to gain insight into their perspectives on practicum experiences.

## Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.

Yes

No

10. Describe your goal.

Review the key assessments for accreditation to ensure alignment with new standards within appropriate coursework.

# Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

 Yes

 No

- b. use technology effectively to collect data to improve teaching and learning

 Yes

 No

- c. use technology effectively to manage data to improve teaching and learning

 Yes

 No

- d. use technology effectively to analyze data to improve teaching and learning

 Yes

 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All students in the Jeannine Rainbolt College of Education at the University of Oklahoma are required to take EIPT 3043 Learning with Educational Technologies. This course is designed based on the National Educational Technology Standards for Teachers from the International Society for Technology in Education (ISTE). These can be found at <https://www.iste.org/standards/for-students> and <https://www.iste.org/standards/for-educators>. There were a few small changes to the course. There are as follows: 1. The use of devices, such as iPads and Chromebooks... 2. Instead of Twitter, we cover several social media platforms, like Facebook, Instagram, Twitter, TikTok, etc. 3. Designing interactive learning activities using interactive whiteboards and other platforms. Preservice teachers in our programs learn to participate and model information age communication and data analysis techniques with activities such as: • The use of iPads in schools is discussed and observed. • Creating a classroom course management site. • Interacting with Twitter for professional learning networks. (PLNs) • Discussion of parental communication techniques using technology. Preservice teachers learn different techniques for integrating technology into the curriculum by: • Creating videos for classroom participation. • Reviewing and critiquing how iPads and associated apps and web-based apps are used in education. • Designing interactive learning activities using interactive whiteboards and alternatives. • Creating an iBook for online reading. In addition, students write a variety of lessons that include assessment and scoring of technology projects created by students and using technology to aid in grading, feedback, and evaluation. We spend a lot of time focusing on objectives and assessment and how students can create measurable learning goals in relation to state and national standards. Through these lesson planning activities and a lesson on assistive technology, students are regularly called upon to plan to use technology to accommodate students with different learning needs and design lessons that are universal through technology use. This course does not look at long-term data trends with

technology but instead focuses on classroom implementation. Course readings throughout the program focus on trends and data in education overall.

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

**Note:** This section is preloaded from the prior year's IPRC.

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

We prepare OU general education pre-service teachers to teach students with disabilities, or who are limited English proficiency, and be a contributing member of individualized education program team through a required course all teacher candidates must take EDSP 3053: Understanding and Accommodating Students with Exceptionalities.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Course objectives and outcomes include: The candidate will be able to – 1. Identify and explain how legislation, judicial proceedings, political and sociocultural movements, and historical events impact the provision of a free appropriate public education to individuals with disabilities and their transition to post school outcomes. 2. Identify the major provisions of special education legislation and extrapolate how this relates to the rights and responsibilities of students, parents, teachers, and other professionals and schools related to exceptional learning needs. 3. Analyze the advantages and disadvantages of placement options and programs on the continuum of services for individuals with disabilities. 4. Identify characteristics shared by individuals in each disability category and articulate appropriate identification practices that reduce the likelihood of under- or over-identification of individuals with disabilities. 5. Explain the educational implications of characteristics of various exceptionalities. 6. Identify modifications and accommodations in assessment and instruction and systems to identify whether they are appropriate for an individual with a disability 7. Identify evidence-based practices appropriate for instructing individuals with exceptionalities to meet their academic, behavioral, and social/emotional needs.

#### c. Effectively teach students who are limited English proficient.

OU general education candidates learn about teaching students who are limited English proficient throughout a variety of courses. While all of our students are prepared to work with English language learners through various courses, we do not offer a stand alone endorsement in instruction of limited English proficient students. We created entitled, EDWL 4970 called Teaching English Language Learners PK-12. This course examines theory, policy, and pedagogical issues surrounding the education of English Learners, including developing language proficiency, critical teacher reflection, advocacy, and culturally sustaining and translanguaging pedagogy, among other topics. Many of our students are encouraged to enroll in this course and some programs have adapted their Programs of Studies to require this course.

### 2. Does your program prepare special education teachers?

Yes

No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

The OU Special Education Undergraduate Program is aligned to the Council for Exceptional Children's standards for undergraduate teacher preparation serving students with mild and moderate disabilities. Students completing our program over the last several years have met this

requirement. Our students exhibit high levels of performance evidenced by student work samples from courses, passage of state certification examinations, and feedback from practicum teachers and administrators. Students practice the knowledge and skills they have learned in their formal courses through extensive field experiences. These field experiences include observation in settings, two intensive practica (i.e., one in elementary and one in secondary), and an internship in a student self-selected grade level. Furthermore, student experience is dispersed across urban, suburban, and rural environments. Thus, OU special education students have in-depth experience in diverse classroom environments: age level and geographical locale. We anticipate that the high quality of our students will continue. We have not identified any program weaknesses but nevertheless we continue to assess regularly and use that data to further refine the program to meet changes in the field and society to ensure the continued high quality of our students.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

Individualized Education Programs OU special education students have many opportunities throughout the program to learn to be effective members of Individualized Education Programs Teams. Some examples are: • In EDSP 3053, Understanding and Accommodating Students with Exceptionalities, students evaluate de-identified IEPs to examine the adequacy of the document. • In EDSP 4093, Transition & Self-Determination students administer transition based assessments and construct a full IEP with a transition plan. • In the Introductory Practicum, EDSP 4072, and Advanced Practicum in Special Education, EDSP 4112, students majoring in special education attend IEP meetings and assist their master teachers in developing IEPs. • In the Introductory and Advanced Internships, EDSP 4134 and EDSP 4144, students majoring in special education help the master teachers develop IEPs and lead IEP team meetings. • Students with Limited English Proficiency Topics related to students with Limited English Proficiency are addressed throughout the program and specifically in the following courses: • EDSP 3054, Understanding and Accommodating Students with Exceptionalities, • EDSP 4023, Assessment for Eligibility and Program Planning • EDSP 4013 Fundamental Academic Instructional Strategies • EDSP 4053 Language, Literacy, and Communication • EDSP 4033 Families and Young Children with Developmental Delays

**c. Effectively teach students who are limited English proficient.**

Students who receive special education services through the IDEA (2004) and are also identified as English Language Learners are prevalent in schools through Oklahoma and surrounding states; thus, we utilize a multi-tiered approach to train our students. First, in EDSP 3053, Understanding and Accommodation Students with Exceptionalities, one of the major discussion topics the first quarter of the semester is on the over/under representation of culturally and linguistically diverse individuals for special education services. This leads us into addressing bias, providing instruction that is highly effective and responsive to students from a variety of culturally and linguistically diverse backgrounds. In EDSP 4033, Families & Young Children with Developmental Delays, the course focusing on building meaningful partnerships with families from a variety of culturally and linguistically diverse backgrounds in order to ensure the Individualized Education Program team is functioning well and protecting the Free Appropriate Public Education for the child. We cycle back to this conversation in EDSP 4093, Transition & Self-Determination, as students work through constructing a transition plan for students identified with a disability in a high school setting. Students must apply their knowledge of being responsive to culturally and linguistically diverse students in administering assessments and collaboratively building a meaningful transition program for students. One other course that addresses working with students who are identified as English Language Learners is EDSP 4023, Assessment for Eligibility & Program Planning. Federal law mandates using non-bias instruments for eligibility decisions and for program planning. Furthermore, all instruments must be administered in the child's native language. Thus, a key aspect of this course is having students know the regulations regarding ELLs and eligibility procedures while also identifying how to approach program planning and identification of related services that would be appropriate for ELLs who also are receiving special education services.
