

RETENTION OF UNDERGRADUATE STUDENTS

FALL 2017

Prepared by

Institutional Research and Reporting
June 2018

NOTES TO THE RETENTION TABLES

1. First-Time Freshman includes summer entries continuing to fall and students concurrently enrolled at OU while in high school that then attended OU as freshmen.
2. Students are removed from calculations of graduation and retention rates if they passed away before completing their degree program or if their program of study was disrupted either by military deployment or religious mission.
3. The following criteria are verified at the end of the first fall term: full-time enrollment, first-time student status and degree-seeking status. Students are then removed from or added to the cohort based on this updated data. Auditors are not included because they are not degree-seeking.
4. The six-year graduation rate includes students verified as having completed course work equivalent to a bachelor's degree (completers). These completers are students in degree programs where the professional degree is the first degree awarded, such as pharmacy and physical therapy.
5. The retention and graduation rates include students beginning on the Norman Campus who enrolled at or graduated from the OU Health Sciences Center.
6. Students who returned to school after a period of absence are included in continuation rates.
7. As of 2010, the US Department of Education requires institutions to gather self-reported race/ethnicity information from new students using a two question format. This new method allows students to pick multiple race/ethnicity categories; prior to the change, students had to pick a single category they felt best described them. This change caused students to shift between categories, sometimes to a very large degree. Because of this, a longitudinal comparison of the affected categories would not be valid.
8. While International (nonresident alien) students also answer the two race/ethnicity questions, their answers are excluded from this area of reporting due to federal guidelines.
9. The US Department of Education's IPEDS system gathers enrollment information in a way that requires each student to be in a single race/ethnicity category to prevent a student being counted multiple times and inflating enrollment figures. To accommodate those students who picked more than one race/ethnicity, they are shown in official reporting counts in the "Two or More Races" category rather than in each individual category selected.
10. A student's major at 30 hours is determined in the term in which they earned 30 combined retention hours, excluding any AP or CLEP credit. This would include any concurrent high school or transfer hours earned.
11. Beginning with the 2014 report, students are no longer retroactively moved to the current college if the student's major changed colleges. They are reported in the college their major was in at that time.
