

RETENTION OF UNDERGRADUATE STUDENTS

FALL 2014

Prepared by

Institutional Research and Reporting
February 2015

NOTES TO THE RETENTION TABLES

1. First-Time Freshman includes summer entries continuing to fall and early entry students.
2. Effective Fall 2012, students are removed from calculations of graduation and retention rates if they passed away before completing their degree program. Previous years have been adjusted to reflect this change.
3. The following criteria are verified at the end of the first fall term: full-time enrollment, first-time student status and degree-seeking status. Students are then removed from or added to the cohort based on this updated data.
4. Students completing a program of >2 and <4 years are added to the 4, 5 and 6 year graduation rates. These students are in professional degree programs where a bachelor's degree is not required for admission, such as pharmacy and physical therapy.
5. All graduation rates include students starting on the Norman campus and graduating from Health Sciences Center.
6. Students who returned to school after a period of absence are included in continuation rates.
7. Auditors are not included.
8. "Other Freshmen" include part-time and continuing freshmen. Sophomores are students with 31-60 hours earned, juniors have 61-90 hours earned, and seniors have 91 or more hours earned.
9. Freshman transfers are new transfer students with 30 hours earned or less while sophomore transfers have 31-60 hours earned, junior transfers have 61-90 hours earned, and senior transfers have 91 or more hours earned.

Notes:

- 1) Students are selected for the full-time cohort based on full-time enrollment at third week or at end-of-term. Retroactive cancels and withdrawals at 100% are removed as non-attenders.
- 2) Students completing a program of >2 and <4 years are added to the 4, 5 and 6 year graduation rates. These students are in professional degree programs where a bachelor's degree is not required for admission, such as pharmacy and physical therapy.
- 3) The change in race/ethnicity categories mandated by the US Department of Education, effective Fall 2010 at OU, caused students to shift between categories, sometimes to a very large degree. Cohort size is not comparable to prior years.
- 4) Effective Fall 2012, students are removed from calculations of graduation and retention rates if they passed away before completing their degree program. Previous years have been adjusted to reflect this change.
- 5) Full-time, first-time degree-seeking freshmen consist of students entering in fall, students entering in summer continuing to fall, and early entry students according to their high school graduation year.

Notes:

- 1) Students are selected for the full-time cohort based on full-time enrollment at third week or at end-of-term. Retroactive cancels and withdrawals at 100% are removed as non-attenders.
- 2) Students completing a program of >2 and <4 years are added to the 4, 5 and 6 year graduation rates. These students are in professional degree programs where a bachelor's degree is not required for admission, such as pharmacy and physical therapy.
- 3) Effective Fall 2012, students are removed from calculations of graduation and retention rates if they passed away before completing their degree program. Previous years have been adjusted to reflect this change.
- 4) Full-time, first-time degree-seeking freshmen consist of students entering in fall, students entering in summer continuing to fall, and early entry students according to their high school graduation year.
