ABOUT THE UNIVERSITY OF OKLAHOMA CAMPUSES

UNIVERSITY GOVERNANCE

The university is a part of the Oklahoma State System of Higher Education, which is composed of all higher education institutions supported wholly or in part by state appropriations. The Oklahoma State Regents for Higher Education is the coordinating board for the system.

The university – as part of the public educational system of the state, established by legislative action and supported by annual legislative appropriations – places emphasis on sound scholarship, good citizenship, and the duties of the individual to the community and the commonwealth.

By constitutional enactment, the governance of the university is vested in the OU Board of Regents, a board consisting of seven members appointed by the governor with the advice and consent of the State Senate. Each member is appointed to serve for seven years, except when appointed to fill an unexpired term, and is subject to removal from office only as provided by law for the removal of officers not liable to impeachment.

The Oklahoma State Regents and the university regents approve the requirements for admission and graduation, the degrees offered, and the fees and expenses. The boards reserve the right to change these requirements.

NORMAN CAMPUS

The central campus and the offices of administration of the University of Oklahoma are located on some 3,500 acres in Norman, a city of more than 100,000 residents. Norman is located near the center of the state, 20 miles south of Oklahoma City, the state capital.

The colleges housed on the Norman campus are University College, the College of Architecture, the College of Arts and Sciences, the College of Atmospheric and Geographic Sciences, the Michael F. Price College of Business, the Mewbourne College of Earth and Energy, the Jeannine Rainbolt College of Education, the College of Engineering, the Weitzenhoffer Family College of Fine Arts, the Graduate College, the Joe C. and Carole Kerr McClendon Honors College, the College of International Studies, the Gaylord College of Journalism and Mass Communication, the College of Law, and the College of Liberal Studies. The Norman campus is also headquarters for the College of Continuing Education, which directs outreach programs throughout the state and around the world.

The Norman campus consists of four sections – central campus, south campus, research campus and north campus. Most of the academic and administrative buildings are located on the central campus, noted for its Cherokee Gothic architecture and award-winning landscaping. Also situated on the central campus are the university residence halls; Sarkeys Energy Center; University Libraries; Fred Jones Jr. Museum of Art; Catlett Music Center, including Sharp Concert Hall and Pitman Recital Hall; Oklahoma Memorial Union; recreational facilities, including the Huston Huffman Physical Fitness Center and the Murray Case Sells Swim Complex; Gaylord Family – Oklahoma Memorial Stadium; the Everest Indoor Training Center; and the Oklahoma Center for Continuing Education, a year-round educational center and conference site. Located one block east of the central campus is the OU Brandt Park and Duck Pond, a recreational area used throughout the year by OU students and Norman residents. David A. Burr Park is conveniently located near residence halls and other recreational facilities.

South Campus

Immediately adjacent to central campus is the south campus, site of the College of Law; the OU Foundation; OU Traditions apartments; the world-class Sam Noble Oklahoma Museum of Natural History; Lloyd Noble Center and parking complex; the John Crain Field at the OU Soccer Complex; the Headington Family Tennis Center; the Jimmie Austin University of Oklahoma Golf Course; L. Dale Mitchell Baseball Park; the Marita Hynes Field – OU Women's Softball Complex; the Sam Viersen Gymnastics Center; and OU Children's World Learning Center.

Research Campus

In less than a decade, the 277-acre OU Research Campus has been transformed from an empty field to a thriving economic engine shaped by a community of public and private sector collaborations located in nearly 1 million square feet of occupied space representing \$300 million in investment. Today, the Research Campus brings together 1,700 workers across academic, federal, state and industrial organizations in a mutually beneficial environment.

The National Weather Center, a 257,000 square-foot facility that opened in 2006, anchors the OU Research Campus on the south. The Center houses both academic and federal groups dedicated to forecasting, research and training. The 260,000 square-foot Stephenson Research complex houses cutting-edge research in fields including robotics, genomics, bioengineering and the OU Department of Chemistry and Biochemistry, which includes a National Institutes of Health-funded structural biology program. A series of five "Partners Place" buildings, totaling 362,000 square-feet, enable the public and private sector collaboration on weather and radar research; innovation and entrepreneurship; and water, climate, and energy. Additionally, a 35,000 square-foot "one of a kind" Radar Innovations Laboratory opened in 2014.

OU's Research Campus has been certified by the Oklahoma Department of Commerce as Site Ready, which allows the university to capitalize on fast-moving economic opportunities and enables site selectors to readily find quality land and facilities that meet nationally established criteria. OU's Research Campus was named the nation's top research park for 2013 by the Association of University Research Parks, placing it among such past recipients as Research Triangle Park in North Carolina, Purdue Research Park in Indiana and University City Science Center in Pennsylvania.

North Campus

North campus, which is two miles north of the main campus, includes the Merrick Computer Center; Max Westheimer Airport, the University-operated airport that also serves the City of Norman; and Swearingen Research Park, where government agencies and industry have established facilities.

ABOUT THE UNIVERSITY OF OKLAHOMA CAMPUSES

Other research and study units of the university include the Biological Station on Lake Texoma; the Sutton Avian Research Center in Bartlesville; the Oklahoma Geophysical Observatory at Leonard near Tulsa; the Aquatic Biology Fisheries Research Center in Noble near Norman; and the Oklahoma Biological Survey, the Oklahoma Archeological Survey and Charles M. Russell Center for the Study of Art of the American West in Norman. In addition, the Oklahoma Geological Survey is a state agency mandated in the Constitution of Oklahoma, and is part of the Mewbourne College of Earth and Energy at the University of Oklahoma.

HEALTH SCIENCES CENTER

The University of Oklahoma Health Sciences Center is the state's major educational resource for training physicians, dentists, nurses, pharmacists, public health specialists and a wide range of allied health personnel. It is one of only four comprehensive academic health centers in the nation with seven professional colleges. The center is composed of the College of Allied Health, College of Dentistry, College of Medicine, College of Nursing, College of Pharmacy, College of Public Health and Graduate College.

Faculty and students use the clinical, laboratory and teaching facilities at the OU Medical Center, Veterans Administration Medical Center, The Children's Hospital at OU Medical Center, Presbyterian Hospital, Dean A. McGee Eye Institute, Oklahoma Department of Health, Oklahoma Medical Research Foundation, other affiliated hospitals in Oklahoma City, the major teaching hospitals in Tulsa, the Veterans Administration Hospital in Muskogee and various affiliated hospitals and clinics in other locations in Oklahoma. The Oklahoma Health Center is composed of the former Presbyterian Health Foundation Research Park and 30 other biomedical entities, including the OU Health Sciences Center as its centerpiece.

Also housed at the University of Oklahoma is OU Physicians, the state's largest physician group. The practice encompasses nearly every adult and child specialty. Many OU Physicians have expertise in the management of complex conditions. Such expertise is unavailable anywhere else in the state, region or sometimes even the nation. Some have pioneered surgical procedures or innovations in patient care that are world firsts. They also serve as faculty at the University of Oklahoma College of Medicine and train the region's future physicians.

The Peggy and Charles Stephenson Cancer Center represents the largest public-private biomedical initiative in Oklahoma history. The 210,000-square-foot facility provides patient-centered care by the largest and most experienced group of cancer specialists, offering the most advanced cancer detection and treatment technology. OU's Harold Hamm Diabetes Center is one of the top comprehensive diabetes centers in the world for adults and children with type 1 and type 2 diabetes, engaging in novel research aimed at progress toward a cure for diabetes and its complications.

OU-TULSA SCHUSTERMAN CENTER

The OU-Tulsa Schusterman Center is located in the heart of mid-town Tulsa at 41st and Yale. On this campus both the OU Health Sciences Center and the OU Norman Campus offer programs. The vision of OU-Tulsa is to build a nationally-recognized center of higher education excellence in select areas that emphasize strong campus-community partnerships and leverage unique opportunities and needs in the Tulsa region.

OU has a long history in the Tulsa area. The earliest program of the University of Oklahoma in Tulsa started in 1957 as a partnership with the Tulsa City-County Library. This program averaged 50 students a year and was one of the first programs to be part of the Tulsa Graduate Center, which became University Center at Tulsa in 1982. Recognizing the potential community impact of an expansion of OU services in Tulsa, the Oklahoma Legislature enacted Senate Bill 453 in 1972 that created a clinical branch of the University of Oklahoma College of Medicine in Tulsa. Today, the OU College of Medicine in Tulsa enrolls 60 medical students in their third and fourth years and trains 181 residents who conduct 200,000 patient visits annually at the college's ambulatory clinics.

Although OU's presence in Tulsa has been longstanding, it changed dramatically in 1999. As a result of the transformational \$10 million gift from the Charles and Lynn Schusterman Family Foundation and the leadership of President David L. Boren, OU was able to purchase 60 acres at the corner of 41st and Yale, previously the BP-Amoco Research Center. The OU programs in Tulsa had been located in a wide variety of physical locations. By the fall of 2002, all OU academic programs in Tulsa were located at the Schusterman Center campus. This campus has allowed OU to better serve the community by providing a strong, centralized identity in Tulsa.

In February of 2008, the George Kaiser Family Foundation made a \$50 million gift to the OU College of Medicine in Tulsa allowing the College of Medicine to have the explicit focus to improve the health status of underserved communities. To reflect that change, the name of the College of Medicine in Tulsa was changed to the OU School of Community Medicine, the first in the nation. The School of Community Medicine remains an integral part of the OU College of Medicine. The University of Tulsa and the University of Oklahoma recently signed a memo of understanding to commence the process to seek approval of the accreditation body for U.S. medical schools to expand the School of Community Medicine to a four-year educational track as a partnership of TU and OU.

COLLEGE OF CONTINUING EDUCATION

The College of Continuing Education provides academic outreach opportunities to the state, region and nation. As the administrative unit for outreach at the University of Oklahoma, continuing education programs are the means by which the university extends its resources to the people of Oklahoma and beyond. By encompassing comprehensive, multidisciplinary academic services and programs that focus on the needs of adult learners, the College of Continuing Education offers both credit and non-credit courses, seminars, workshops, conferences, correspondence study, public service activities, and travel/study programs. The diversity and quality of the services available through continuing education programs provide an exciting and challenging academic experience.

HIGHLIGHTS OF 2014

The University of Oklahoma

January 2015

OU had the largest number of freshman National Merit Scholars ever enrolled at the University with 311 scholars.

OU was the only Big 12 university selected as having one of America's 25 most beautiful campuses.

OU received \$160,912,789 in private gifts and gifts-in-kind in the 2014 fiscal year. Gifts made toward the general scholarship endowment brought its total to \$285 million, doubling what it was in 2009. Members of the President's Associates, an annual giving group that provides unrestricted funds to President Boren, contributed over \$2.6 million in fiscal year 2014, and annual planned giving, which includes matured gifts and expectancies, increased from \$17 million in fiscal year 2012 to \$22 million in fiscal year 2014.

Don and Cathey Humphreys also made a \$1.5 million gift to the campaign to establish an endowed chair in the Jeannine Rainbolt College of Education and to create scholarships for OU's study abroad programs.

The Princeton Review and Entrepreneur Magazine ranked the Price College of Business entrepreneurship undergraduate program in the top 5 and the graduate program in the top 20 in the nation. The college's international business program was ranked for the 10th consecutive year as a top 25 program by U.S. News & World Report.

For the second consecutive year, OU was the Big 12 Conference Champion for using more green power than any other school in the conference, according to rankings released by the U.S. Environmental Agency. OU beat its conference rivals by using nearly 154 million kilowatt-hours of green power, representing 85 percent of the school's annual electricity usage.

At the OU Health Sciences Center, the College of Medicine reached the \$10 million goal for its Second Century Scholarship Campaign, doubling its total scholarship endowment since 2010. The college in 2014 awarded over \$1.1 million in scholarships. It took the college only three-and-a-half years to reach this goal instead of the anticipated five-year campaign timeline.

The Radar Innovations Laboratory was dedicated in a public ceremony. It was the eighth research facility to be built on the Research Campus in less than a decade. The 35,000-square-foot facility encourages creative thinking and collaboration among faculty, students and external partners with a goal of innovating the next-generation radar, microwave electronics and related technologies.

In a White House ceremony, the Sam Noble Oklahoma Museum of Natural History was awarded the nation's highest honor conferred on museums and libraries for service to the community. The Institute for Museum and Library Services honored only five museums and five libraries nationwide with the 2014 National Medal for Museum and Library Service. Medalists are chosen because of their significant and exceptional contributions to their communities from nationwide nominations of institutions that demonstrate innovative approaches to public service, exceeding the expected levels of community outreach.

A \$3 million gift from the Price Family Foundation to OU and the Albert Einstein College of Medicine of Yeshiva University created the first ever anaerobic structural biology program in the United States. The OU-Einstein Research Consortium's focus would be on advancing groundbreaking research with biomedical relevance in an unexplored area and would establish an Institute of Structural Biology in the Stephenson Life Sciences Research Center on OU's Research Campus.

Aided by a \$500,000 gift from The Helmerich Foundation of Tulsa, the lower level of the Neustadt Wing of Bizzell Memorial Library was renovated to create a 21st-century collaborative learning center. In recognition of that support and in honor of Peggy Helmerich's longtime interest in libraries at OU and in the state, OU Regents voted to name the renovated space as the Peggy V. Helmerich Collaborative Learning Center.

OU was selected to serve as Secretariat for the U.S. Department of State's Diplomacy Lab program, to be launched nationwide in the fall. The announcement was made at a Town Hall meeting in March led by U.S. Secretary of State John Kerry for university students and interns. The Diplomacy Lab allows students and faculty members at universities around the country to explore complex global challenges facing the State Department and to contribute to the policymaking process through their research projects. As the Secretariat for this nationwide program, OU would serve as the coordinator for all universities selected to participate in the program.

Price College of Business began offering an Executive Master of Business Administration in Energy. Created by the Energy Institute within the Price College, the program allows students to learn primarily online with three weeklong in-person residencies, the first of which participants completed in Norman.

The University of Oklahoma was awarded a \$572,000 grant from the Andrew W. Mellon Foundation for the development of a digital library of Latin texts of all eras. The Digital Latin Library – a Linked Open Data resource – represented a significant collaborative effort to advance access to these texts. The Society for Classical Studies, the Medieval Academy of America and the Renaissance Society of America endorsed this project.

The College of Medicine School of Community Medicine Track, Tulsa, introduced a new Child and Adolescent Psychiatry Fellowship to address a critical local and national shortage of services and access to care for childhood mental disorders, which are challenging to diagnose. The goal of the fellowship program was to graduate two board-eligible child psychiatrists per year beginning in 2017 and provide high-quality child and adolescent psychiatry diagnostic services.

In recognition of the university's pioneering work in teaching and practical experience for its students in the area of intellectual property in sports, OU's Licensing Department was named as the recipient of the 2014 Synergy Award: Program of the Year, presented by the International Collegiate Licensing Association.

Ten OU-Tulsa faculty were selected to participate in the inaugural class of the Innovation and Sustainability Institute. Administered by the Tulsa office of the Center for the Creation of Economic Wealth, the Institute was designed to directly support and foster the innovative ideas of OU-Tulsa faculty. The institute incorporated the application of business principles and the considerations for social entrepreneurship and innovation as well as a plan for financial stability to promote the successful launch and development of faculty ideas.

The University of Oklahoma achieved an 80 percent graduation rate overall for student-athletes, the highest mark ever recorded by the Sooners since the NCAA began tracking this data.

CHRONOLOGICAL HISTORY

The University of Oklahoma

2013 to Present	Applicants will be considered for admission using a holistic review and selection process which considers several factors that predict academic success (i.e., high school grade point average, high school course rigor, academic engagement, writing ability, leadership, and ACT/SAT scores). Although the University of Oklahoma is reviewing every application through the holistic process, it will continue to report the percentage of admitted and enrolled students subject to the alternative admissions standards and will not enroll more than 8% as dictated by Oklahoma State Regents for Higher Education. Through Spring 2016, the University of Oklahoma will offer admission to resident students who meet or exceed previous admission standards. The holistic process will determine whether a conditional, contractual, and time-limited admissions offer is made to these resident students.

- Notes: 1) The six-year graduation rate includes students verified as having completed course work equivalent to a bachelor's degree (completers). These completers are students in degree programs where the professional degree is the first degree awarded, such as pharmacy and physical therapy.
- 2) The retention and graduation rates include students beginning on the Norman Campus who enrolled at or graduated from the OU Health Sciences Center.
- 3) The 2003-2005 cohorts have been revised from prior publications to a more accurate cohort by verifying cohort status at the end of the first semester.

- Notes: 1) As of 2010 the US Department of Education requires institutions to gather self-reported race/ethnicity information from new students using a two question format. This new method allows students to pick multiple race/ethnicity categories; prior to the change students had to pick a single category they felt best described them.
- 2) While International (nonresident alien) students also answer the two race/ethnicity questions, their answers are excluded from this area of reporting due to federal guidelines.
- 3) The US Department of Education's IPEDS system gathers enrollment information in a way that requires each student to be in a single race/ethnicity category to prevent a student being counted multiple times and inflating enrollment figures. To accommodate those students who picked more than one race/ethnicity, they are shown in official reporting counts in the "Two or More Races" category rather than in each individual category selected. While allowing for easier reporting, this means that enrollments in the individual race/ethnicity categories look smaller than before the methodology change because students that used to pick one category to best fit their circumstances now move to the new "Two or More Races" category.

ABOUT THE UNIVERSITY OF OKLAHOMA HEALTH SCIENCES CENTER

Mission Statement

The mission of the University of Oklahoma Health Sciences Center, as a comprehensive academic health center, is to educate students at the professional, graduate and undergraduate levels to become highly qualified health services practitioners, educators and research scientists; to conduct research and creative activities for the advancement of knowledge through teaching and development of skills; and to provide continuing education public service and clinical care of exemplary quality.

The Profiles of OU Health Sciences Center is designed to highlight the focus of our mission statement in regard to its student, faculty and staff population. It is complementary to the Norman Campus section in layout design but includes an additional emphasis on the specialized medical career training of the Health Sciences Center. Both graduate research and health professional training are sponsored by all colleges within the OU Health Sciences Center. The Graduate College also provides a unique role in the oversight of all graduate level research, master's thesis and doctoral dissertation committees. The "Health Professional" designation represents a career emphasis that results in a professional degree or certification for public health and health service practitioners, and the "Graduate College MS/PhD" designation represents graduate-level research sponsored by the college. Degree-seeking students from the Norman Campus and non-degree students are categorized separately.
