EDUCATION

University of Oklahoma

Bachelor of Science in Petroleum Engineering

- GPA 3.37

Norman, Oklahoma

May 2025

WORK EXPERIENCE

Continental Resources

Reservoir Engineer Intern

- Focused on Rate Transient Analysis for the Powder River Basin to determine whether RTA can be implemented to quicken the learning process and to understand key Niobrara well performance parameters, and their economic implications.
- Established and documented ability to utilize a RTA flowchart to predict well economics.
- Characterize flow regime behavior and how it relates to decline curve analysis including initial production, decline rate, first year cumulative production, and estimated ultimate recovery.
- Gained field exposure by visiting the Powder River Basin, gave an insight into how the basin has progressed in the last decade.

Oklahoma City, Oklahoma

May -August 2024

Hunt Oil Company

Reservoir Engineer Intern

- Focused on learnings, lookbacks, and decline type curves for multiple field areas.
- Learned the basics to various programs and learned the day to day duties of a reservoir engineer. Also got to understand the duties of other departments in the company.

Dallas, Texas

May -August 2023

Lucas Well Service LLC

Floor Hand

- Responsible for keeping count of stand/tubes coming in/out when the rig was milling out frack plugs.
- Some of the work done included testing tubing, fishing rods, changing pumps, setting packers, swabbing.
- Set equipment daily, cleaned rig and well sites, maintained a safe work environment, repaired broken equipment, rigged up and down, and aided in the transportation of equipment and work crew.

Ringwood, Oklahoma

May – August 2022

SKILLS

Software: Aries, Whitson, Harmony Enterprise, Carte, Well View, Enverus, SpotFire, Python, Excel, Pipesim, PVTsim Nova

Languages: English (Fluent), Spanish (Intermediate)

LEADERSHIP & ACTIVITIES

Society of Petroleum Engineers- Conference Chair, have organized trips for our entire chapter

Mewbourne School of Petroleum & Geological Engineering Ambassador

American Association of Drilling Engineers- Member

Society of Petrophysicists and Well Log Analysts- Member

Oklahoma Energy Resource Board- Scholar, have participated in multiple events including several filming and interview sessions for commercials OERB will use in to promote the industry
