Good morning!

You are receiving this email to provide an update on the details of your transition to a biweekly pay schedule. You should have received email communications from me beginning last fall.

You are currently setup as a 9-month appointment paid over 9 months. The details below assume you will be in this same pay group upon making the transition to a biweekly payroll in **August 2024**. On a biweekly pay frequency, you will receive a paycheck every other Friday during the academic biweekly payroll calendar; the academic biweekly payroll calendar includes 20 pay periods. . If you expect your pay group to change prior to the biweekly implementation or believe you have received this email in error, please reply to me at paydaychange@ou.edu. If you have stepped up into a 12-month position or will be stepping up into a 12-month position I will be in touch next week with an alternative email to you that specifically addresses your transition details since your appointment type is changing, but if you have any questions in the meantime do not hesitate to contact me at paydaychange@ou.edu.

Current State

The last monthly paycheck you received as part of your 2023-2024 academic contract was issued on May 31, 2024 and included pay for May 1st – May 15th. Your current monthly payroll schedule runs August 16 – May 15 and your monthly gross paycheck is calculated by taking your annual 9-month salary and dividing it by 9 months in which approximately half of your monthly rate pays in May and half in August. If you are receiving summer salary during the summer of 2024, that will still pay on a monthly schedule as you are used to this summer – those summer dates for monthly payroll are May 16 – August 15.

Please note that if you are receiving summer salary in August, that will be issued on an 8/16/24 paycheck this year instead of 8/30.

Future State

When your 2024-2025 academic contract renews in August 2024, you will be paid on a biweekly payroll schedule with the first academic year pay period beginning on August 10, 2024. This does not impact your expected contract work dates as indicated in your original offer letter; the payroll dates simply correlate to the new biweekly academic payroll schedule. Because biweekly payroll is processed two weeks in arrears, **you will receive your first biweekly paycheck and first paycheck for the 2024-2025 academic year on September 6, 2024 for the pay period August 10, 2024 to August 23, 2024** (this is demonstrated in the calendar below). **Your biweekly gross pay is calculated by taking your 9-month annual salary divided by 20 pay periods.**
